# Patient Questionnaire (Baseline)

#### 1. General Questions

1.1 Gender		
Male Female	Transgender O ther	Preferred not to say
1.2 Ethnicity		
White British	Any other mixed background	Caribbean
White Irish	Indian	African
Any other White background	Pakistani	Any other Black background
White and Black Caribbean	Bangladeshi	Chinese
White and Black African	Any other Asian background	Any other ethnic group
White and Asian		
1.3 Smoking status		
Never smoked	Ex-smoker	Current smoker
1.4 How long did you have the syn	ptoms of your condition before you	were referred to the rheumatology clinic?
<1 month	6–12 months	5–10 years
1–3 months	1–5 years	>10 years
3–6 months		
	a a da	

#### 2. Musculoskeletal Health Questionnaire (MSK-HQ)

The MSK-HQ is a short questionnaire that allows people with musculoskeletal conditions to report their symptoms and quality of life in a standardised way. The aim of the questionnaire is to assess how well services improve the quality of life for people with musculoskeletal conditions, such as arthritis or back pain.

#### 2.1 Pain/stiffness during the day:

How severe was your usual joint or muscle pain and/or stiffness overall during the day in the last 2 weeks?

Not at all	Slightly	Moderately	Fairly severe	Very severe
2.2 Pain/stiffnes night in the last		vere was your usua	ll joint or muscle	oain and/or stiffness overall at
Not at all	Slightly	Moderately	Fairly severe	Very severe
<b>2.3 Walking:</b> How much have y	our symptoms inte	rfered with your abil	ity to walk in the las	t 2 weeks?
Not at all	Slightly	Moderately	Severely	Unable to walk
<b>2.4 Washing/Dre</b> How much have y		rfered with your abil	ity to wash or dress	yourself in the last 2 weeks?
Not at all	Slightly	Moderately	Severely	Unable to wash or dress myself
	been a problem for	you to do physical a symptoms in the las		or a walk or jogging) to the level you
Not at all	Slightly	Moderately	Severely	Unable to do physical activities
			d with your work or	daily routine in the last 2 weeks
Not at all	Slightly	Moderately	Severely	Extremely
<b>2.7 Social activit</b> How much have		e symptoms interfere	d with your social a	nctivities and hobbies in the last 2 weeks?
Not at all	Slightly	Moderately	Severely	Extremely
<b>2.8 Needing help</b> How often have y muscle symptoms		m others (including f ?	amily, friends, or ca	rers) because of your joint or
Not at all	Rarely	Sometimes	Frequently	All the time
<b>2.9 Sleep:</b> How often have y symptoms in the		either falling asleep	or staying asleep b	ecause of your joint or muscle
Not at all	Rarely	Sometimes	Frequently	Every night

## 2. Musculoskeletal Health Questionnaire (MSK-HQ) continued

<b>2.10 Fatigue or low energy:</b> How much fatigue or low energy have you felt in the last 2 weeks?				
Not at all	Slight	Moderate	Severe	Extreme
<b>2.11 Emotional v</b> How much have		low in your mood be	cause of your joint	or muscle symptoms in the last 2 weeks?
Not at all	Slightly	Moderately	Severely	Extremely
Thinking about ye	our joint or muscle	tion and any curren symptoms, how well agnosis and medicat	do you feel you un	derstand your condition and any
Completely	Very well	Moderately	Slightly	Not at all
How confident ha	<b>in being able to n</b> ave you felt in being cation, changing life	n <b>anage your sympto</b> g able to manage you estyle)?	o <b>ms:</b> Ir joint or muscle sy	mptoms by yourself in the last 2
Extremely	Very well	Moderately	Slightly	Not at all
<b>2.14 Overall imp</b> How much have		e symptoms bothered	d you overall in the	last 2 weeks?
Not at all	Slightly	Moderately	Very much	Extremely
enough to raise y	on how many days our heart rate? Thi	s may include sport,	exercise and brisk v	more of physical activity, which was walking or cycling for recreation or to get at is part of your job.
None	1 day	2 days	3 days	
4 days	5 days	6 days	7 days	

#### 3. Your wellbeing (Patient Health Questionnaire – PHQ-2)

Having any long-term health condition can affect your mental wellbeing, as well as your physical wellbeing. This questionnaire will help you to let us know how you are. Read each item and tick the box next to the response which comes closest to how you have felt in the last couple of weeks. Don't take too long over your replies – your immediate reaction will probably be more accurate than a long thought-out response.

Over the last 2 weeks how often have you been bothered by any of the following problems?

3.1 Little interest or pleasure in doing things			
Not at all	Several days	More than half the days	Nearly every day
3.2 Feeling down, depre	and as honology		
3.2 Feeling down, depre	essea, or nopeless		

#### 4. Your wellbeing (Generalised Anxiety Disorder scale - GAD-2)

Having any long-term health condition can affect your mental wellbeing, as well as your physical wellbeing. This questionnaire will help you to let us know how you are. Read each item and tick the box next to the response which comes closest to how you have felt in the last couple of weeks. Don't take too long over your replies – your immediate reaction will probably be more accurate than a long thought-out response.

Over the last 2 weeks how often have you been bothered by any of the following problems?

4.1 Feeling nervous, anxious or on edge				
Not at all	Several days	More than half the days	Nearly every day	
4.2 Not being able to s	top or control worrying			
Not at all	Several days	More than half the days	Nearly every day	

# 5. Work questionnaire (Work Productivity and Activity Impairment Questionnaire – WPAI)

The following questions ask about the effect of your condition on your ability to work and perform regular activities.

5.1 Are you currently employed (working for pay)? If yes, skip to 5.3	5.7 During the past seven days, how many hours did you actually work?
Yes No	hours Skip if answered No at 5.1. If 0, skip to question 5.9.
5.2 Have you stopped work since you began experiencing symptoms?   Yes No   5.2a If yes, was this due to your symptoms?   Yes No	5.8 During the past seven days, how much did your condition affect your productivity while you were working? Think about days you were limited in the amount or kind of work you could do, days you accomplished less than you would like, or days you could not do your work as carefully as usual. If your condition affected your work only a little, choose a low number. Choose a high number if your condition affected your work a great deal.
5.3 Have you changed your job, role or hours since you began experiencing symptoms?	0 1 2 3 4 5 6 7 8 9 10
Yes No Skip if answered No at 5.1.	Condition hadCondition completelyno effect onprevented me frommy work - 0working - 10
5.3a lf yes, was this due to your symptoms?	
Yes No Skip if answered No at 5.1.	5.9 During the past seven days, how much did your condition affect your ability to do your regular daily activities, other than work at a job? By regular activities, we mean the usual activities you do, such as work around the house, shopping, childcare,
5.4 What is/was your occupation?	exercising, studying, etc. Think about times you were limited in the amount or kind of activities you could do and times you accomplished less than you would like. If your condition affected your activities only a little, choose a low number. Choose a high number if your condition affected your activities a great deal.
5.5 What industry do/did you work in?	0 1 2 3 4 5 6 7 8 9 10
	Condition had noCondition completelyeffect on my dailyprevented me from doingactivities - 0my daily activities - 10

5.6 During the past seven days, how many hours did you miss from work because of your health condition?Include hours you missed on sick days, times you went in late, left early, etc., because of your health problems.Do not include time you missed to participate in this study.

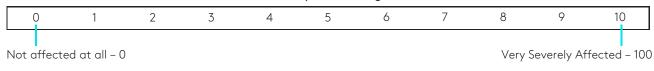

hours

Skip if answered No at 5.1.

#### 6. General impact of your condition (Patient Global Assessment score)

6.1 Considering all the ways your condition affects you, how well are you doing?

Please mark on the scale below to indicate how well you are doing.

#### 7. Further Involvement

We are looking for people who may be interested in taking part in research that contributes to better health for people with arthritis related problems. In order for researchers to know who to contact about projects we have introduced Consent for Contact (C4C). As a first step, we are creating a register of people who would be willing to be contacted. At this stage we're not asking you to agree to any particular study. If you agree to join this register you're giving your permission for researchers to contact you in the future.

#### Who can see the register?

Researchers would need to have formal Approval from the National Research Ethics Service before access to the register was granted. Researchers would not have access to any of your medical records unless you clearly agreed to this in future. **Do I have to take part in research if join the C4C register?** No. You would be free to choose to take part or not in any research, without giving a reason. Whether you sign up for the C4C register or not, your care will not be affected in any way.

### Would you be happy to be contacted by researchers in the future?

Yes	No
